

EHS Support Packages

Full Service Compliance and Safety Solutions

We know that budgets are tight these days and you have more responsibilities and less staff. Let ComplianceStrategies help bridge the gap by having one of our trained EHS professionals on campus/onsite to help you manage these challenges.

Depending on your specific needs, you choose the areas of focus and the number of hours of support needed per month.

Resources and Flexibility to Meet Your Needs

- ✓ Professional staffing provided by ComplianceStrategies. Various support packages are available for purposes ranging from quarterly safety inspections, to a Compliance Calendar, to having a full time EHS Professional on site each week.
- ✓ Flexible EHS support packages available (i.e., 10hrs, 20hrs, 40hrs/month) with discounts for multi-year agreements.
- ✓ Compliance Calendars. ComplianceStrategies can lift some of the regulatory burden from you by building and supporting a Compliance Calendar, which will track and monitor all of your local, state and federal regulations, so you don't have to.

Training

- DOT Hazardous Materials
- 24 Hour HAZWOPER
- 8 Hour HAZWOPER Refresher
- OSHA 10 Hour and 30 Hour
- Hazard Communication
- Laboratory Safety Standard/Chemical Hygiene Program
- Bloodborne Pathogens
- Emergency Preparedness and Response
- Fire Safety

Features and Benefits

REDUCE OVERHEAD

Benefit from a trained EHS professional to conduct scheduled inspections as frequently as needed, freeing up personnel and budget dollars.

DEMONSTRATE COMPLIANCE

Maintain licenses and permits, generate reports, create policies, and implement training programs designed to reduce your safety and compliance risk.

SAVE MONEY

Reduce current costs by having ComplianceStrategies manage your waste streams on a day to day basis.

- Collection
- Lab Packing
- Hazardous Waste Disposal
- Universal Waste, Solid Waste, and Recycling
- Waste Stream Audits and Continuous Improvement

AVOID SOFTWARE COSTS

All programs include a custom dashboard and field survey protocols. Built-in action plans and project management tools allow you to assign tasks to users and to track and trend performance over time.

For the cost of software alone, you can receive 20-40 hours per month of EHS field support.

Project Based Consulting

We provide a full range of professional Environmental Health and Safety consulting services, including:

- Comprehensive Risk Assessments
- Policy Review and Written Program Development
- Training Program Development and Deployment
- Industrial Hygiene Assessments and Sampling
- Behavioral-Based Safety Programs
- Contractor/Worker Protection Plans

3rd PARTY COMPLIANCE ASSURANCE

Achieve policy driven and/or regulatory requirements for independent professional 3rd Party Auditing.

REAL TIME RESULTS

View today's work today, not 3 weeks from now. Our patented proprietary compliance software allows us to deliver actionable data in real time.

CUSTOMIZABLE DASHBOARDS

National retail, multi-location, or single users have access to compliance data and documents in a secure, dashboard environment.

REDUCE COSTS

Time is money. ComplianceStrategies has invested millions of dollars into leading edge technology, resulting in a superior product in less time than other consultants.

3rd Party Audits

Occupational Health - OSHA
Environmental - EPA
Food Safety - FDA
Stormwater Management
Waste Management
Green Certification
LEED
